Pond Creek

The driest weather for the time of year we have had in many years. Some of the farmers are obliged to quit breaking soil and wait for a generous shower.

Most of folks are done making garden and planting potatoes.

Quite a number of our people attended the pie supper at the Myers schoolhouse and report a real nice time. The proceeds of the supper amounted to \$40.87, which was very patriotic of the boys, as the money is to be used to buy Thrift Stamps. Those donating later were George F. Smith, \$1; M. Sturgeon, \$1; H. U. Waggoner, \$1; D. F. Myers, \$1; M. G. Mouser, \$1; Gilbert Sturgeon, 50 cts. This we think is a pretty good showing for a small district. The cake brought \$12.64. Mrs. Josie Fowler being the prettiest lady.

I think Sergeant Crader was a little out of line on a few remarks he

made about men claiming exemption. There may be some—but he said all—who ought to be in the service. I filled out my questionnaire as correctly as possible, being ready to go or stay at home and the board put me in class 4. Others did the same. Now I am farming and hope to be able to do something for my country while at home. I assure you however, that I am ready to do anything I can either in actual service or behind the plow. I suppose some did marry to keep out of service, but that is being considered by the board. Come on, boys, with the news from Camp Funston for I have many friends there and enjoy hearing from them. May God's hand guide you all! CORY.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running nose or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; otherwise out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure, sent for free.

THRIFT IS ..PREPAREDNESS..

Financial strength is to nations as important as military strength. No nation can survive a war if it cannot finance itself.

The man who fortified himself with an account in a savings bank does more than prepare himself—he contributes to the preparedness of the country.

Germany, unable to borrow from other countries, has been financed by the thrift of her people, as this thrift was expressed in accounts in savings banks.

A savings bank deposit helps the nation and is indispensable to the individual.
